Reserve for Employee Benefits Accrued Liability

Creation - This reserve was created prior to 2004.

Purpose - This reserve is used to pay for unused accumulated leave time

contractually provided to certain groups of employees. This includes payment for unused sick and vacation pay. This fund cannot be used to pay for items such as retirement incentives and retiree health

insurance.

Funding Methods - Funds have been placed in this reserve from excess fund balance.

Use of Reserve - This reserve is used when an employee separates from the District and

payment of accumulated leave is required. These transactions flow through the budget via a budget revision with the offsetting revenue coming from a drawdown of this reserve. This reserve will continue to

be used in this manner to make these payments.

Monitoring of Reserve – This reserve is monitored by the School Business Manager. Each

year, an analysis of the liability is computed and is used to support the

funding of this reserve.

Reserve for Unemployment

Creation - This reserve was created in 2005.

Purpose - This reserve is used to reimburse the State for payments made to

claimants.

Funding Methods - This reserve was funded from excess fund balance.

Use of Reserve - The district is self-insured for Unemployment Insurance. This reserve

has been appropriated from, each year for the last seven years, equal to the amount of budgeted appropriations for unemployment. Actual expenses for unemployment vary from year to year and only the amount actually expended is transferred from the reserve to the General Fund. The district's costs were \$147,232 in 2011 and \$0 in

2021.

The current budget of \$25,000 will be insufficient to cover future unemployment expenses should there be multiple layoffs, or should

unemployment awards increase.

Monitoring of Reserve- This reserve will be monitored by the School Business Manager in

conjunction with other administrators to assess the potential for

incurring unemployment claims.

Funding Level - At this time, the current level is deemed appropriate. The district may

need to appropriate from this reserve in the next few years as layoffs are possible with the building reconfiguration and the ending of the

federal funds in the 2024-25 fiscal year.

6/30/21 Actual Balance: \$90,000

Funds Used in 2020-21: \$0

Recommendation: Maintain current funding level or consider increase to defray future claims.

<u>Assigned Fund Balance – Appropriated for Subsequent Years</u>

Creation – These funds are those funds in available fund balance which have been

set aside for a particular purpose, namely to reduce the tax levy

required to support an ensuing year's budget.

Purpose - These funds are set aside and returned to the community by lowering

the required tax levy to support the district's budget and maintain

programming.

Funding Methods - These funds are assigned from fund balance to offset the next year's

tax levy.

Use of Funds - It is recommended that the practice of returning these funds be reduced

as much as possible, as budgets permit. As we develop tighter budgets, the amount of excess funds that will be available at year-end is restricted. This makes it more difficult to guarantee that funds will be

available to be returned in a subsequent year.

Monitoring of Balance- The balance and use of these funds are monitored by the School

Business Manager.

Funding Level – It is recommended that the planned amount of assigned fund balance

included as a revenue source in future budgets be limited or \$0 when

possible.

6/30/21 Actual Balance: \$70,477

Recommendation: Continue to reduce the Appropriated Fund Balance in future

budgets by reducing the budget when possible and applying new and increased revenues. Only appropriate an amount equal to or less than the total budget for equipment and other one-time

expenditures.
